IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Application of

Atty. Docket

NAVEED MAJID ET AL

A 23,843A

Serial No. 09/440,595

Group Art Unit: 2811

Filed: 09/440,595

Examiner: N. PAREKH

Title: MULTIPLE SEMICONDUCTOR CHIP (MULTI-CHIP) MODULE FOR USE IN  
POWER APPLICATIONS

Commissioner for Patents  
Washington, D.C. 20231

AMENDMENT

Sir:

In response to the Official Office Action dated March 28, 2002, it is respectfully submitted that the currently-pending claims, as previously amended, define an invention which is clearly patentably distinguishable over the cited and applied references, for the reasons detailed below.

REMARKS

In the outstanding Official Action, claims 1-7 were rejected under 35 U.S.C. §103(a) as being unpatentable over Takagi et al in view of Lauffer et al and the APA, for the reasons of record.

In response, Applicant's again note that the three cited and applied references each show a different prior-art solution, none of which is as simple, compact and elegant as that of the instant
